

Weybridge controlled parking zones

Dear Reader,

We would like your views in developing a parking scheme for an area north of the High Street in Weybridge.

In line with the County Council's commitment to consult with residents, businesses and other road users. Our aim is to be open, fair and consistent when looking at changes to on-street parking.

We have been made aware of the parking and related highway safety issues in Weybridge. To try and resolve some of these problems and to increase road safety and emergency vehicle access the Council is considering the option to introduce parking controls in an area north of the High Street, as shown on the Plan (see reverse of **Frequently asked questions**).

We want to get things right and for this reason we would like your views on the proposed parking changes in the area shown.

We have endeavoured to contact all effected properties and groups detailing the proposals asking them for their views at this stage to help inform the final decision making/design stage later in the year.

The parking bays and yellow line restrictions are designed to address specific problems and to formalise correct and safer parking. This is evermore important with the increase of vehicle usage and consequent stress placed upon our roads. The restrictions will enable residents to find parking spaces near their property whilst still enabling shoppers and visitors to park for limited periods to maintain the vitality and viability of the area.

Whilst we understand that these proposals may not suit everyone at all times we aim to make them as inclusive as possible whilst still achieving an overall solution. We welcome your views upon the introduction of a scheme or its current design.

We invite you to review the Weybridge Controlled Parking Zone Plan on the back of this leaflet before giving us your comments / views on the following pages.

Your views are important to us, please make them known!

Frequently asked questions

1. Does a resident permit guarantee me a space outside my property?

No, unfortunately the permit does not guarantee you a space outside your property or even in your road but it will be valid anywhere inside of the CPZ and will thus allow for a greater capacity of vehicles overall to park within the area.

2. Can anybody park in my street?

Anybody displaying a valid permit for that zone may park for an unlimited period or a visitor may park for up to the maximum time displayed on the signs.

3. Are visitor permits available for periods longer than the limited waiting time?

Yes visitor permits may be applied for to persons already qualifying for a residents permit

4. Do I have to have roadmarkings and signs in my road?

Yes, all restrictions that are enforced by a Traffic Regulation Order must be signed to the Standards set down by the government including roadmarkings and associated road signs.

5. The bays appear to run in front of my driveway?

The bays will be marked in front of the entrances but a delineation marking or 'H bar' marking will also be placed enabling only the resident to park in front of their entrance increasing parking capacity within the road.

Have your say!

It would help us if you could indicate by circling the options you feel would best give the preference to residents whilst still maintaining parking for other road users.
